

New SITEMA Locking Unit KFPC

Facts

- Completely redesigned series
- Stronger and more compact
- Holding forces 11 kN, 22 kN and 44 kN
- Rod diameters 20, 30 and 40 mm
- Installation space up to 50% smaller
- Independent of cylinder manufacturer

Advantages

- Positioning in both load directions
- Stepless clamping, i.e. at any position
- High lifetime
- Short reaction time thanks to special high speed port
- Can be mounted directly to a cylinder
- Easy mounting and handling
- Stock item - short delivery times

Applications

- Automation
- Automotive industry
- Handling systems
- Test and measuring equipment
- Assembly systems
- Packaging machines

- up to 80 % stronger
- up to 50 % smaller
- optimized lifetime
